EXPERIENCE

Associate UX Designer

May, 2025 - Present

Playsimple Games

Bengaluru

- Drove growth in a live Jigsaw puzzle game from **\$11K to \$15.3K** daily revenue and increased **D1 retention from 25% to 30%** by using player behavioral data to redesign onboarding and progression systems.
- Owned **0-1 product design** for *Picmerge*, a picture-merging puzzle game, defining core puzzle, progression, and reward systems from concept through launch, with **67% of installs** completing the intended core loop.

UX Designer (Freelance)

May - Oct, 2025

Infinite Possibilities

- **Translated private equity analysis workflows** into an agentic interface for Deal Advisor, restructuring a feature-heavy dashboard around key tasks and decisions based on **stakeholder and domain-expert input**.
- Designed **customisable IC memo workflows** to turn analysis into decision-ready outputs; **collaborated with the founder** and developers through iterative prototypes to ship the product's first agent.

Visual Design Intern

July - Aug, 2024

TimelyAI

- **Built a scalable asset system** for an internal AI design tool, reducing new design creation from **90+ to <10 per day** while standardizing outputs across 40+ clients.

EDUCATION

Indian Institute of Information Technology, Jabalpur

2022 – 2026

Bachelor of Design (B.Des.) | **CGPA: 9.1**

PUBLICATIONS

Lessons Learned in Inclusive Game Design: Bridging the Gap Between Visually Impaired and Abled Players
Presented at **ServDes 2025** [[paper](#), [project](#)]

PATENTS

Co-inventor on 4 patents across healthcare, accessibility, and sustainability.

- Liver Health Monitoring Device (202521096112); Portable Air Cooler (202521016064); Power Generation Amusement Device (202421099126); Bathing Aid for Children with Cerebral Palsy (under filing)
